

# Contra Costa County PeopleSoft Training

Using Fluid pages

## Grids

Data in Fluid pages is often displayed in a grid. This is true for many displays of data in the information panel of a fluid page and in search results on Look Up pages.

Here are examples of grids. The top shows a grid in the information panel of a fluid page. The bottom shows a grid on a lookup page.

The screenshot displays the PeopleSoft Payroll Self-Service interface. The top section shows a 'Pay Checks' grid with the following data:

Check Date	Company	Pay Begin Date / Pay End Date	Net Pay	Paycheck Number / PDF Check
11/10/2016	Contra Costa County	10/01/2016 / 10/31/2016	\$3325.36	3177633
10/10/2016	Contra Costa County	09/01/2016 / 09/30/2016	\$3244.59	3161167
09/09/2016	Contra Costa County	08/01/2016 / 08/31/2016	\$3256.76	3144687

Below the grid is a 'Lookup' page for 'Ethnic Group'. The search criteria section includes a 'Search Criteria' dropdown and input fields for 'Ethnic Group (begins with)' and 'Description (begins with)'. The search results section shows a table with 4 rows:

Ethnic Group	Description
AMIND	American Indian/Alaska Native
ASIAN	Asian
BLACK	Black/African American
PACIF	Pacific Islander
